

HELP WITH CONCEPTION OF TWO CHILDREN

—The Testimony of Dima Yeshou—

May, 2016

My name is Dima Yeshou. I came to Saint Nektarios Monastery back in May of 2006, because for five years I was trying to get pregnant, and it did not happen, despite all the medical interventions that we tried. I heard about Saint Nektarios from a friend of mine, who had a miracle himself with his wife. He had a child after his wife had drank holy water. He is also a doctor with whom I did residency together. His wife could not get pregnant. Her mom came to the Monastery and got holy water from here, and after his wife drank it, then she got pregnant. The wife did not even visit.

I came in May of 2006 and exactly the next month I got pregnant. John-Nektarios is my son. He is 9 years old. I came again after he was born, asking for another child. I came in 2008, and I got pregnant with Jenifer the very next month, and she is seven years old. I am so blessed. I would like to tell the whole world about the work of God through His saints, and Saint Nektarios is the one who I always ask for help, and I feel he is always next to us, and he takes our prayer to God.

Dima Yeshou from New Jersey
