

VARIOUS INTERVENTIONS BY SAINT NEKTARIOS

—The testimony of Athena Arsenis—

May 11, 2025

I am very grateful to Saint Nektarios for all his intercessions.

My daughter had a febrile seizure. It was the scariest thing a mother can witness. I prayed to Panagia our beloved Mother and to Saint Nektarios. The doctors performed a 72 hour EEG and it came out normal. I called the Monastery and Father Stephanos picked up the phone and said they would pray for her and all would be okay. The MRI came out normal and I am forever grateful for all the prayers the fathers said for my daughter and my family.

Another miracle Saint Nektarios performed was he helped my father after having prostate surgery. He was experiencing several issues after surgery and I called the Monastery. Father Stephanos picked up the call and I told him that I was very confused and stressed over my dad's issues. He told me that they would pray for him and light a candle. After that day my dad started to see relief and began to recover. His blood work came out much improved and he is feeling much better.

I am also forever grateful to Saint Nektarios and to Geronda Joseph for all his prayers. He helped me pass the NY Bar exam. Geronda Joseph assured me that Saint Nektarios would be with me during the exam. I will never forget his words. I am forever grateful to Saint Nektarios for all that he has given me.
